

## HYSTERO TROLLEY

Portable Case dedicated to hysteroscopy

**Hystero Trolley** is a new product of recent conception, specifically designed to simplify outpatient hysteroscopy interventions, that can also be performed in private clinics.

It will not be anymore necessary to be equipped of bulky instruments; indeed, it will be enough to have Hystero Trolley with you, in order to have all that you need. Furthermore, this suitcase, not only has an iron handle but also a recess handle with wheels, that allow you to bring the trolley wherever you want without supporting the weight.
